

RAHUL KUMAR

Java Full Stack Developer

Bihar, India

+91-9798010143 | rahulkumarsingh6480@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Final-year B.Tech Computer Science Engineering student at I.K. Gujral Punjab Technical University (IKG PTU) with hands-on experience in Java Full Stack Development using Java, Spring Boot, React.js, SQL, MySQL and PostgreSQL. Strong understanding of Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Software Engineering and REST API Development. Developed real-world applications including Library Management System and Student Management System. Seeking opportunities as a Java Developer, Software Engineer, Backend Developer or Full Stack Developer.

Education

- | | |
|---|-------------------------------------|
| • Amritsar Group of Colleges (IKG PTU)
<i>Bachelor of Technology - Computer Science Engineering (CGPA: 6.4)</i> | 2023 – 2027
<i>Punjab, India</i> |
| • J.R.S H/S +2 Patruti Hata
<i>12th - Bihar School Examination Board (57.4%)</i> | 2019 – 2021
<i>Siwan, Bihar</i> |
| • High School Chainpur
<i>10th - Bihar School Examination Board (55%)</i> | 2019
<i>Siwan, Bihar</i> |

Technical Skills

- **Programming Languages:** Java, C, C++, JavaScript, SQL
- **Frontend Technologies:** HTML5, CSS3, React.js
- **Backend Technologies:** Spring Boot, Node.js
- **Databases:** MySQL, PostgreSQL
- **Developer Tools:** VS Code, Git, GitHub, Postman
- **Software Engineering Concepts:** OOP, SDLC, MVC Architecture, Client-Server Architecture
- **Core Computer Science:** Data Structures & Algorithms, Database Management Systems, Operating Systems
- **API Technologies:** REST APIs, JSON, API Integration
- **Development Areas:** Full Stack Development, Backend Development, Frontend Development, Authentication Systems, CRUD Operations

Projects

- **Library Management System | Java, Spring Boot, React.js, MySQL**
 - Developed a full-stack library management application using Java, Spring Boot, React.js and MySQL.
 - Implemented CRUD operations for books, users and library records.
 - Designed and developed the application following MVC architecture principles.
 - Integrated authentication and authorization for secure access control.
 - Connected MySQL database with Spring Boot backend for efficient data management.
 - Designed responsive interfaces and optimized data management workflows.

- **Student Management System | Node.js, JavaScript, MySQL**

- Created a role-based student management portal using Node.js and MySQL.
- Managed student records, authentication and database operations efficiently.
- Designed relational database schemas for optimized record management.
- Implemented role-based authentication and secure login functionality.
- Developed responsive frontend using HTML, CSS and JavaScript.
- Implemented secure data handling and structured record management.

- **Weather Application | JavaScript, REST APIs**

- Built a responsive weather application with API integration.
- Displayed real-time weather information through dynamic user interfaces.
- Implemented REST API communication and JSON data processing.
- Implemented API data fetching and responsive design principles.

- **To-Do List Application | JavaScript**

- Developed a task management application for organizing daily activities.
- Implemented add, update and delete functionalities.
- Designed a responsive and user-friendly interface.
- Enhanced productivity through efficient task tracking features.

Relevant Coursework

Data Structures & Algorithms		Database Management Systems		Operating Systems	
Object-Oriented Programming		Software Engineering			

Certifications

- NPTEL – Programming in Python
- NPTEL – Theory of Computation
- NPTEL – Cloud Computing
- NPTEL – Computer Architecture
- Udemy – Full Stack Web Development

Soft Skills

- Problem Solving
- Communication
- Teamwork
- Time Management
- Adaptability

Professional Strengths

- Knowledge of Software Development Life Cycle (SDLC)
- Experience with MVC Architecture and REST API Integration
- Strong understanding of Database Design and SQL Query Optimization
- Version Control using Git and GitHub
- Problem Solving and Debugging Skills
- Ability to build scalable Full Stack Web Applications
- Strong analytical and logical thinking abilities
- Quick learner with adaptability to new technologies
